announces that he has resumed practice at Strathmore.

CHEADLE NOTES
Mrs. Bickel, of Calgary, mother of Mr. Bickel, our school teacher, is, we understand, coming down to stay with him for a couple of months, after which she is leaving for a trip to the east.
Mrs. Ray Miller and son are staying in Calgary for a couple of weeks.
Marshall McQuibban and George Hinde, the two soldier livers, stopped at Grant's Garage overnight on Friday on their walk to Ottawa. They have each lost a leg in the war, and then have the reputation of being a noted hiker, but he went on through to Strathmore to arrange for a lecture and concert by the boys on their trip east.
Wheat seedling is about completed in this district.

Time Increased On Land Caveats

Editor, Strathmore Standard
Dear Sir:
The following is an account of a certain resolution which I presented to the Irricana Local of U.F.A. and results incident thereto which I consider very important to the farmers in regard to taxes, and respectfully request that you give some space in your columns.
At a meeting of the Irricana U.F.A. and U.F.W.A. the Secretary and Rev. M. D. Keoma spoke in regard to taxes and the working of the Tax Recovery Act as it applied to the rate payers. As a result of that, they were requested to frame up the following resolutions:
1. Whereas under Section 6 of the Tax Recovery Act, the date of the filing of the caveat is during the month of August, and subsequently transfer of Certificate of Title to the Municipality (under Sec. 12) falls in the month of August, and
Whereas the farmers have no available funds at that time to pay non-majority crops and expense of years farming operations.
Therefore be it resolved that the date of the filing of the caveat be deferred to a later date more suitable to crop returns and that the date of the transfer of Certificate of Title may be altered respectively.

2. Whereas under subsection 1 of Section 26, of the Tax Recovery Act, the Municipality is empowered to retain the surplus money (if any) to be used in the payment of taxes and costs. And Whereas this is a hardship on a farmer because of his liability to pay, be considered it only fair that any surplus should be his property.
Therefore be it resolved that this subsection be amended to read "In payment of the surplus (if any) to be to the party originally owning the land."

These two were afterwards submitted and approved by the local and forwarded by myself to Mr. Dordy, M.L.A., for Gleichen, with a request that he bring the matter up at this session of the Legislature. It was not expected that results could possibly be obtained in this respect so soon, but we are able to report that in brief the Hon. Mr. Dordy's reply was that the first resolution requesting an extension of time on filing of Caveats from present date of August, would be allowed to 30 days later which would bring this date in November, a more suitable date. This he stated would be done in the House during this week, his letter was dated April 16th.

In regard to our second resolution he stated that they could not consider same as it would be taken advantage of to disadvantage of farmer by mortgage companies closing out creditors. This was not quite clear to me at first and I took the matter up with J. H. Lamb, Deputy Minister of Municipal Affairs, and he advised in part from his letter, "As I understand you are asking that the surplus of money to go to the owner of the land. In this connection permit me to point out the difficulty of such proposition. In the first place it is not often that quarter sections of land confiscated for taxes are free from all encumbrances other than the taxes. Usually, and I may say in ninety-nine cases out of a hundred, there are greater encumbrances other than the taxes, so heavy that the man finds himself unable to meet and come through the other obligations which fall upon him, and he has decided not to redeem his land. Now if the Municipality were to take over the task of putting this land through Tax Recovery, with all its mortgages, writs, liens, and claims against the land of every sort and kind, other than the taxes, and then have the redemption of the money to the man himself, you can see how fraud would be engaged in. It must be remembered that this is not only the owner of the land, but every person has a right to redeem his land on behalf of the owner, so that all par-

Plan for Irrigation

There is a rush of spring work under present conditions where labor cost must be kept down and many farmers have too much land to be handled properly.
It is well to remember, however, that it is not the number of acres farmed but the number of acres with a profit made, that counts. It is probable that we will have spring moisture to germinate the grain crops, but there was only about an inch of water resulting from the snow of the first three months of the year, while April has been very dry. There is no stored moisture from last year except on land irrigated late last season.
It is therefore wise to plan to irrigate early and continue until there is three or four inches of rain during both May and June.
All the land to be irrigated should be done with the 18 ft. levelled bottom seedling. This is just where many farmers fail to carry out a very necessary preparation for good irrigation results.
At least a third of the irrigated land should be in hay and pasture grass so as to distribute the work of irrigation over a longer period of time, and to farm production as it is, of course, essential to have stock to consume the forage crop produced.
In 1922 there was about 12,680 acres of irrigable land in crop, and of this 36.8 per cent, was actually irrigated. The potential irrigated, average yield and the comparative yield of non-irrigated crops and land crops for the Western Section was as follows:
Of cotton, irrigated, average yield per acre; 2ndelund, Non irrigated, average yield per acre; 3rd cel. Dry Land, average yield per acre (cel).
Average Yield Bushels.

Wheat	20.3	16.5	9.2
Oats	35.6	21.4	18.3
Barley	22.1	11.6	11.2
Rye	10.5	5.1	5.1
Flax	10.3	4.6	4.6
Timothy	18.1	12.7	10.4
Alfalfa	2.0	1.2	1.4
Timothy	3.6	1.2	1.4
Hay	1.1	0.7	0.7
Greenfeed	0.7	0.7	0.7
Sunflowers	11.5	6.1	5.1

It is to be noted that the irrigated crops are about twice the dryland crops. There is not much profit in growing an average crop and since money was above the average there must also have been many below and producing at a loss.
It is quite possible to double production shown above by better methods and by the aid of the water to meet conditions and make a profit in 1922.

ROBERT S. STOCKTON
April 28th, 1922

CLEANING SEED FOR FARMERS
The provision of seed cleaning and cleaning what at Edmonton is now engaged in cleaning seed for farmers of the province. Seed wheat, oats and barley are being handled at a rate of 6 cents a bushel.

Interest concerned could protect their interest if they saw best to do so. Under the 1922 Tax Recovery Act, if land is to be confiscated then it provides that the people of the entire Municipality have the benefit of the taxes.
From the foregoing you will be noted that our first resolution asking for extension of the date of filing of Caveats from August is to be granted, but that we do not expect to get the latter one, which, upon investigation appears undesirable. I hope to see the Act, for endorsing this resolution which is, in my mind, a very important matter for this district and all of Alberta at the present time.
Yours truly,
FRANK EWING,
Secretary-Treasurer

Plant Trees

This is the season of the year for tree planting. What has been done already in Strathmore and on many farms throughout the district has demonstrated that trees can be easily grown on both dry and irrigated land and that a splendid showing is obtainable in a very few years.
The C.P.R. Demonstration Farm will have available for distribution on Arbor Day, May 7th, 5000 2-year-old willows and 4000 1-year-old Russian Poplars. The price charged for these is two cents apiece.
Those who intend buying trees should notify the C.P.R. Demonstration Farm on any day this week, and the trees will be sorted out and banded and ready to take away.
Last year a large number of trees were distributed from the farm, but they were not lifted until Arbor Day, with the result that there was considerable confusion, some people getting less than they registered for.

Irricana News

All refuse, empty cans and dead animals, must be cleaned up by May 10th. The sanitary inspector will swoop down on us, sit or around that date, and we would, any delinquent found with an untidy alley.
Irricana needs a coat of paint.
Mr. and Mrs. Crumwell enthusiastically entertained at a farewell banquet in honour of Mr. James Taylor, who is leaving town for the summer months. Short and appropriate speeches were made by J. McCulloch and Mr. A. Archibald, and fittingly responded to by Mr. Taylor. The balance of the evening was enjoyably spent in music and refreshments.
By supporting the local dealer you assist the community in which you live and you increase the value of your own property. Buy the old home town, and kick knocking.
If you want to live in the kind of a town like, you don't pack up your clothes in a grip, and start for a farewell hike. For you will only find what you left behind. There is nothing really new. It is a knock for yourself when you knock your town. It is not your town, it is you.
Mr. D. H. Russell and Mr. G. McGroarty were business motorists to Calgary during the week.
Charlie Allen our local photographer is making every possible effort to entertain his patrons by screening good, clean, educational shows. The plays should be more patronized. The screening of the eight-year-old multi-millionaire Jackie-Come, featuring "Peck's Bad Boy." Every kid in the district should see Jackie perform.
While Mule is not a by-product of tax, and is not manufactured locally.
Mr. Tommy Garrett left on Tuesday night, accompanied by a couple of friends, headed for the Shelby oil fields.
The heavy water-laden snow flakes of Sunday and Monday have choked up the irrigation ditches one hundred per cent. Every available acre will have to be seeded.
Sunday last Oddfellows' Sunday was so much to be remembered in Irricana for some time to come. The spacious hall was literally packed with people. The Ladies Aid chieftain, through their president, a camp-headed taste called Carr, were instrumental in securing the services of this youthful gospel scholar, Rev. Wayne Smith, of Acme. We are informed that this body of sincere servants of the gospel will endeavor to have Mr.

Doubles Milk Production

Fine Showing For March
During the month of March, 1922, the Irricana local of the C.P.R. Demonstration and Supply Farm, Strathmore, produced 86,654 pounds milk from 87 cows, as compared with 41,320 pounds milk from 62 cows in March 1921.
The per head average for last month, states Mr. G. J. Jones, manager of the farm, was 371 pounds milk per cow, as compared with 331 pounds, the per head average was 351.2 pounds. The average per head is thus almost double that of last year, which is a very satisfactory showing.
Some of the cows at the Farm have been showing very high production in the record of performance tests.

BOYS' AND GIRLS' EXHIBITS

"Perhaps one of the most popular exhibits in connection with the spring stock show at Edmonton and Calgary were the outstanding exhibits of live stock shown by the boys and girls. The exhibits were wonderfully creditable. These competitions must develop in the boys and girls on the farm a great love for farm animals, and a better strain and type and breed, and also an idea of the business end of the livestock industry. And perhaps it is fitting them to stay on the farm. We hear lots these days about the "drift from the farms to the cities, and on the other hand there is the cry of "back to the land." Any movement which will help the boys and girls to appreciate more their outlook and opportunities in following the vocation of a country life is in these days to be commended. The great rural interests are human life, livestock, and good crops are of little value to the farmer unless they can own the door to a good kind of life on the farm," said Theodore Roosevelt. And Robert L. Stevenson said, "If a man loves his labor, he will find it apart from any question of success or failure, the Gods have called him." Cornelius Nisley wrote an interesting paper on "Why some Boys Love the Farm" and "Why Other Boys Hate At Home," and he seemed to have an understanding of the question. This may be opportune time to repeat part of his advice:
"Why did you leave the farm, my lad? Why did you bolt and leave your father? Why did you beat it off to town. And turn your poor old father down?"
"Please tell the platform, nap, press. No fey off, tell, or love of dress. Is driving off the farmer lads. But just the methods of their date."

Plant Trees Arbor Day

Strathmore Board of Trade, at a recent meeting, approved of a scheme for planting some trees along the streets of Strathmore with trees.
Some streets, notably the upper half of First Street, have already been planted with trees. It is proposed that on Arbor Day, Monday, May 7th, that volunteer workers will turn out, and plant trees on both sides of second street, from the Crown Lumber Company's office to the Memorial Hall corner, and then West along Third Avenue to the Junction with First Street.
250 poplars have been ordered from the C.P.R. Demonstration Farm. Principal Whitney has offered the services of the school children to the Board of Trade Committee to help in the work on Arbor Day.
Those citizens who are willing to contribute their services on Arbor Day should communicate with Mr. J. Saunders, chairman of the Board of Trade Committee.

There are a number of streets in Strathmore that are suitable for tree planting. That part of Third Street, in particular, from the junction with the R. C. Church, is well built up, and owners and renters of property along that street would be doing a public service by planting trees on the street fronting their homes. The trees can be secured from the C.P.R. at the nominal cost of two cents each, so that the main requisite is the labor.
Smith preached at Irricana every alternate sabbath throughout the summer.
Sad event—William is working.

Heavy Rainfall

Ground is Well Soaked
The undercurrent of anxiety which existed in many minds as a result of the drought of the month of April was dispelled by a splendid rain which commenced to fall on Sunday morning, and continued till Monday morning, when it fell for some time in the form of snow. The total precipitation as registered on the Government instruments at Strathmore C.P.R. Irrigation Headquarters, was .48 of an inch up till 8 a.m.
The rain soaked into the ground for five to six inches, and will ensure a good start for the year, and the ground seed is in the ground and everything has been most propitious, but the usual Alberta winds have prevailed, and have had a drying effect on the soil. At the same time it is hardly necessary to say to every "blue rain" it is not yet into the ground, and the ground still contains moisture. But farmers on irrigated land will be using water shortly if rain does not overtake them.

Like 1915
It is stated that this year so far has in results been very much as 1915, which is regarded as the banner year for Alberta. It would not be proper to draw conclusions from this, but at the same time it is a very hopeful augury.

The month of April 1915, was dry, and rain fell in the first week in May. On April 20th, on 20th April, 1915, commented as follows:
"We need rain, yes, we all want it. We have had a whole month of fine, warm, clear weather, the bulk of the seed is in the ground and everything has been most propitious, but the usual Alberta winds have prevailed, and have had a drying effect on the soil. At the same time it is hardly necessary to say to every "blue rain" it is not yet into the ground, and the ground still contains moisture. But farmers on irrigated land will be using water shortly if rain does not overtake them."

Plant Trees Arbor Day

Strathmore Board of Trade, at a recent meeting, approved of a scheme for planting some trees along the streets of Strathmore with trees.
Some streets, notably the upper half of First Street, have already been planted with trees. It is proposed that on Arbor Day, Monday, May 7th, that volunteer workers will turn out, and plant trees on both sides of second street, from the Crown Lumber Company's office to the Memorial Hall corner, and then West along Third Avenue to the Junction with First Street.

TIES

We have a beautiful range of new patterns. You will like them. 50c to \$1.95

Golf News

Favored by the fine weather of the last month, local golfers have been getting in a lot of play, and considerable work has been done in putting the course in good shape.

Mr. Roland Hill, who is chairman of the improvement committee has been very active, and has worked hard personally, assisted by Mr. W. G. Knyvet and several others. The handicap committee has fixed up a list of handicaps.

We have received a schedule of events for the season, drawn up by this committee, and same will be published in next issue.

A PLEASANT AFTERNOON

A very pleasant afternoon was spent at the home of Mrs. Givins last Thursday, when a large number of the members of the Union Ladies Aid met to hold their Annual Election of Officers. Mr. Rowe was present and conducted the business part of the programme. The following officers were elected for the ensuing year: Mrs. S. E. Hall, president; Mrs. R. E. Smith, Vice-president; Mrs. Givins, secretary; Miss Coe, treasurer.

In a few well chosen words Mrs. Zerkle presented Mrs. Green, the retiring president, with a beautiful cup and saucer from the Aid. Mrs. Zerkle spoke of the efficient and faithful service rendered by Mrs. Green during the past two years, and that her untiring services had been appreciated. Mrs. Green responded with a few remarks and thanked the Aid for their token of remembrance.

Mrs. Dehnan and Mrs. Anderson, who were with us for the last time before their departure to their new homes were addressed by Mrs. Dehnan, who said, in a few fitting words, that all hoped they would enjoy their new surroundings and bade them good wishes and God speed.

A social half hour was then spent, during which time, in her usual gracious manner, Mrs. Givins served elaborate refreshments. The tea table was decorated with pink carnations and Mrs. Van Duren assisted in pouring and passing tea.

A large number of visitors were present, and all took their departure feeling a profitable and pleasant afternoon had been spent.

UNRESERVED

AUCTION SALE of Household Furniture

on SATURDAY, May 5th, 1923

at 1.30 p.m.
 Inspected by Mr. E. Dehnan, who is leaving for Eastern Canada, I will sell as above the following:

Mrs. Lena Dwyer returned home to Strathmore on Thursday after a two month holiday in various parts of the U.S.A. She states that she had an excellent holiday, but that after all there is no place like home.

It is a long time between rains in this Western Country, especially throughout the winter season. Sunday's rain was the first since October 15th. Of course there has been snow throughout the winter, but less than the normal. Seeing that there has been less than the normal precipitation since the beginning of the year, there is every reason to hope that the deficiency will be made up during the coming summer, when it will do the most good.

A new refrigerator is being built at the King Edward Hotel, having been authorized by Mr. McMillan, of the Calgary Herald, when in town last week. Mr. McMillan looks forward to Alberta being out of the dry belt after the vote is taken next November, and he asked his former bookkeeper who is now in business in Strathmore if he would like to go back to the business again.

Mr. and Mrs. Jacob Harneth are rejoicing in the birth of a son on Friday, April 27th. Jacob will soon have to the credit of his own rearing for the kid.

Plant Trees on Arbor Day.

It is found that school grounds have all the trees in now that can be accommodated without restricting the playground, so the children's services on Arbor Day are devoted to helping plant trees on the town streets.

Ray Miller, of Shellville, has been notified that he is the winner of a \$2,200 McLaughlin motor car, offered as a prize in a competition held by a Winnipeg Firm.

A local man, who was a number of years ago an implement dealer in Saskatchewan, received last week a cheque for \$25, being commission on sales of implements during 1915. He says it felt like getting money from home.

Friends of Miss Hazel McLaughlin will be glad to learn that she is progressing favorably after her operation for appendicitis in the General Hospital on April 27th.

Serviceberry School reports a Goodbye Tally up (all April 25 or 26) tally. Banks and Scholastic throughout Canada will be closed Arbor Day, May 7. Readers will note the sale of Mr. E. Dehnan's household furniture on Saturday of this week.

The sale of Mr. R. A. Anderson's household furniture took place on Saturday last, being conducted by Mr. R. A. Johnston. Prices realized were fairly low. Mr. and Mrs. Anderson and family expect to leave Strathmore this week, and will have the best wish, as of all for their happiness and prosperity in the future. Mr. Anderson has sold his home to Mr. Jack Thompson.

Mr. Harry Vickers has sold his home to the Hawtrey Co., as a home for their local office, Geo. Stewart.

Mrs. W. E. Philp of Rocky Mountain House, is at present visiting Strathmore.

Dr. J. W. Gifford arrived back in Strathmore Monday after a week's visit to Edmonton.

STRATHMORE LADY'S SUCCESS
 The famous friend of Mrs. E. A. Dunn, B.A., will be pleased to hear of her success in the graduate's course recently concluded at the Edmonton Normal School. With twenty three hundred students enrolled Mrs. Dunn headed the list for the entire school in the marks for practical teaching. Her average was 85 per cent against a next best of 75 per cent.

In a compulsory examination in Canadian History set by the Department of Education for British and U.S. teachers who wish to obtain certification, this lady had the highest marks of all candidates who took the examination.

In addition Mrs. Dunn satisfied the conditions in every subject and will be granted by the Department of Education, an Academic Certificate, which is the highest teaching diploma issued by the Province of Alberta.

Baintree Notes

The epidemic of flu which has been raging furiously throughout the country, visited our town last week, and had all the inhabitants low. Fortunately the sickness was of a brief duration, and all the invalids are now back to normal.

Quite a number of cultivators have been ordered for this point, and the new method of summerfallowing will be watched with deep interest by the whole community. If enterprise, combined with courage can achieve success, the farmers of this district will surely have a share.

Mrs. T. Longbottom desires to thank her many friends for the kind wishes and expressions of sympathy received during her recent illness.

Tom Hart, of Rockyford, was in the district last week purchasing fat stock.

A number of the farmers here are complaining of the scarcity of hogs, and a few good men would be readily absorbed.

Mr. and Mrs. Ed. Lyons have moved to their own farm, and everyone wishes them a successful season to begin with.

Mrs. Fenton Smith and Miss Betty Leonard visited Calgary last Monday. Fenton Jr. accompanied them.

The other morning we noticed a youth snare a nother, cut off his tail, put the said tail in a match box and turn the suffering animal loose. Wonder if it was a mistake, or whether he was protecting future business.

P. J. Lyons was a visitor to Calgary last Tuesday.

Messrs Russell and Thorsen, of Parrish and Heinbecker Co. were in Baintree last week closing out the elevator for the season.

The Rev. John Garden, of Tulare, held his usual service in the school house on Wednesday evening.

A bible class was enjoyed with Mrs. P. E. Wyman as instructor for the adults, while Miss de Mille will look after the younger people. The next meeting will be held on May 9th, to which everyone is cordially invited.

We regret to report that Walter Ketter's residence was entirely destroyed by fire on Wednesday afternoon. The cause of the fire is not known, and except a few personal effects everything was lost. Fortunately the wind was from the south, otherwise the rest of the out-buildings would have been taken fire.

Baseball

The "Heartacs" met their first defeat of the season last week-end, when W. A. Hart's collection of "Tim Neekies" made the local team dizzy to the tune of 19 to 4. Bill, in the box, showed the Baintree outfit that he could wind the ball as well as the pen. A feature of his play was the ground balls and sky rockets.

The outstanding player for the "Heartacs" was Sir Henry, with his trustworthy cricket bat, which he says is the only thing to hit a ball with. He connected safely every time at bat, and in the last inning made a home run—the ball landing on the roof of the beautiful chicken house that had recently been built. He reports that his hens have quit laying, and would like the advice of some expert on the subject.

DALROY THEATRICAL NEWS

Mavis Yorkie took her troupe to Dalroy on April 6th where owing to the House Show they performed to a small but very appreciative audience.

The bill consisted of three sketches and some incidental numbers. Ivy Stucken sang two songs in her usual pleasing style and played a character part with ability. Wilma Phipps played the "Yankee" in "Uncle Sam Sings" and Eva Ross, the artist's model in "Mord Alice" she performed her parts with graceful ease and intelligence.

Garnet Lawson had a lot of hard work to do and acquitted himself very creditably. He played three different parts in a manner which showed that he had conscientiously applied himself to their study. Darry Lawson was quite convincing as the choleric major of the "Queen of Hearts."

Mavis Yorkie played "Innocence" in "Uncle Sam Sings" very successfully. Her best piece of work was as Mord Alice, the cockney servant girl, which did not prevent her assuming the part of the fashionable widow in the last act with apparent ease.

ONE LEGGED VETERANS WALKING TO OTTAWA

In Strathmore Saturday

A plucky feat is being attempted by a couple of ex-soldiers, both of whom lost a leg in the Great War, they having undertaken to walk from Calgary to Ottawa.

They arrived in Strathmore Saturday forenoon, and in the evening entertained the moving picture audience at the Memorial Hall, Marshall McDougall giving a couple of pianoforte selections, while George Hinks gave a short talk on the object they had in view in making the trip, and a number of overseas stories.

The purpose of the hike is to draw attention to the position in which those who suffered the loss of limbs in the war are placed in the present. It is claimed, and with good reason, that the pensions paid are inadequate for their proper support, especially in the case of married men. Even at present part of the pension is on a temporary basis.

The two legless veterans are accompanied by Tom Bennett, also an ex-soldier and a well-known hiker.

The boys desire to thank Mr. J. Saunders, who repaired their crutches for them, these as they left Calgary having proved unequal to the strain of the walk.

The travellers left Strathmore on Sunday on their way east.

CHAPTER IS FORMED AT BASSANO

Last Wednesday Harmony Chapter Royal Arch Masons was instituted at Bassano. In addition to the local brethren, a large number were present from various parts of the Province, including a number from Strathmore. Harold W. B. Bell, Strathmore, was present in his official capacity of Grand Superintendent of District No. 4.

The ceremony was conducted by Right Excellent Companion J. R. Plan, Calgary.

Following the institution the officers of the new chapter were installed, H. Standish being installed as 1st Principal.

Dinner was served for the gathering at the Hunter Hotel, and a banquet was served at the lodgeroom in the evening and a toast list honored.

1922 BUSHY YEAR IN OIL PROSPECTING

During the year 1922 boring operations for the discovery of oil and gas were conducted in unrelenting fashion in the province of Alberta, in the North West territories, the eastern half of British Columbia, and some boring was done in the province of Saskatchewan and Manitoba.

Up to the end of the last calendar year, there had been about 250,000 feet of drilling done in Alberta alone. The results have been the discovery and development of one of the greatest gas fields of the world, the output of which amounts to 180,000,000 cubic feet per day, and is used for domestic and industrial purposes in many of the towns and cities of southern Alberta, particularly in the cities of Medicine Hat and Calgary.

In addition to the gas wells there are six wells producing oil in Alberta, all situated in the southern Alberta favorable area, and one well in the North West Territories. The output from the wells in southern Alberta is not large, but it has been found to be profitable to operate them.

1922 promises to be a much busier year in oil prospecting than 1922. Successful drilling in Northern Montana has caused the formation of a number of companies who are drilling on the Canadian side of the boundary.

FARMERS' AID BANKS

Nearly four thousand persons designated as farmers, ranchers and wheat growers in Canada were registered as shareholders in Canadian chartered banks in 1922, according to a report recently tabled in the Canadian Parliament by the Minister of Finance.

The number of farmer shareholders, by provinces, was as follows: Alberta, 216; British Columbia 52; Manitoba 130; New Brunswick 65; Nova Scotia 245; Ontario 1,388; Prince Edward Island 28; Quebec 465; and Saskatchewan 747. Total of 18,473 farmers paid income tax to the federal treasury in the year 1922, and of all the provinces, Saskatchewan last year had the greatest number of tax-paying farmers with a total of 6,560. Ontario came next with 6,138 and Manitoba third with 2,466. The total for the other provinces were: Alberta 1,438; British Columbia 440; New Brunswick 48; Nova Scotia 198; Prince Edward Island 40, Quebec 159 and Yukon 2.

Carbon News

On Saturday of last week Mrs. H. A. Evans left Carbon for her home in Saskatchewan. All her friends, and she had many, are deeply sorry at her departure from Carbon. We can only hope that the social activities of the town will suffer for her loss. It is unnecessary to recall the innumerable concerts and entertainments, the success of which was attributed almost solely to Mrs. Evans. We ourselves have personal knowledge of the untiring, persevering effort and the quiet fact that Mrs. Evans showed in enterprises of this kind, and in our own little way we desire to express our regrets and good wishes to those of her friends upon her leaving us.

There is almost an epidemic of flu in town at present. Mrs. A. Hay, Mrs. G. D. McFarlane, Mrs. Hummel and Mr. W. A. Bralcher, are all down with it at the time of writing. Mr. A. Hay is up again after an attack of it. During his sickness the mail from Graining was carried by Clayton Hay.

A cartload of feed oats came in last week and was unloaded into the Al-

berta Pacific Elevator by Mr. W. Leitch and Mr. H. B. Bowman. A challenge for speed at unloading was issued by Dutch and his helper. All desirous of winning the laurels please communicate direct with Dutch.

We believe it to be our duty to notify the public at large that Mr. H. M. Thorburn is seriously contemplating installing a new table and new chairs for the accommodation of the rooming players. The table and chairs at present in use must be almost completely worn out.

The basement of the new Massey-Ledger building was excavated during the past week. Work on the construction of the building will commence in the very near future.

Mr. J. A. McDonald, C.P.R. Agent, notified with his family to Strathmore last Sunday. Some while previous to coming to Carbon, Mr. McDonald was agent at Strathmore, and took this opportunity of visiting old friends.

Business visitors to Calgary last week included Mr. J. J. Greenan, Mr. R. A. Boyle and Mr. A. Crawford.

Mr. and Mrs. H. M. Thorburn were in Calgary over last week-end.

Special Mission

Tutor and Rockyford Circuit Will Hold Special Two Weeks

The congregations of Tutor and Rockyford Union Church are to hold two weeks of special services in the Union Church, Rockyford. The services commence on Sunday, May 6th, at 8 p.m., and continue, with the exception of Saturday, May 12th, until Friday, May 18th.

They have been fortunate in getting the following speakers for this mission: Rev. H. Rowe, D.A., of Strathmore; Rev. Geo. Driver, of Trinity Church, Calgary; and Rev. H. H. Bingham, B.A., of First Baptist Church, Calgary; and are assured of thoughtful and helpful messages.

In addition to bright congregational singing there will be special soloists at each service.

The subjects are as follows:

Sunday, May 6th, 8 p.m., "What Jesus Meant by Kingdom of Heaven," Rev. A. H. Rowe; solo by Gordon Weir, Standard.

Tuesday, May 8th, 8 p.m., "How God Meets Our Need," Rev. A. H. Rowe; solo by Miss Brown, Rockyford.

Wednesday, May 9th, 8 p.m., "The Contrality of Jesus," Rev. A. H. Rowe; solo by Mrs. J. Rennie, Tutor.

Thursday, May 10th, 8 p.m., "The Importance of the Church," Rev. A. H. Rowe; solo by Miss Brown, Rockyford.

Friday, May 11th, 8 p.m., "Advantage," Rev. A. H. Rowe; solo by Gordon Weir, Standard.

Sunday, May 13th, 8 p.m., "His Mother's God," Rev. G. E. Driver; solo by Gordon Weir, Standard.

Monday, May 14th, 8 p.m., "The Wide Way of Life," Rev. G. E. Driver; solo by Mrs. J. Rennie, Tutor.

Tuesday, May 15th, 8 p.m., "A Miss Is As Good As A Mile," Rev. G. E. Driver; selection by Rockyford quartette.

Wednesday, May 16th, 8 p.m., "Motive Power," Rev. G. E. Driver; song selection by the England Young People, Crowfoot.

Thursday, May 17th, 8 p.m., Subject in Strathmore Standard last week, Rev. H. H. Bingham; solo by Miss Brown, Rockyford.

Friday, May 18th, 8 p.m., Subject in Strathmore Standard last week, Rev. H. H. Bingham; solo by Gordon Weir, Standard.

Rev. John H. Garden, who has been instrumental in organizing this mission has met with great success since coming to the Rockyford and Tutor districts, and the forthcoming series of services is already due to his initiative.

Mr. and Mrs. G. P. McGregor spent the week-end in Munson, renewing acquaintances.

Mr. L. C. Elliott and Mr. F. Panter took a fall out of Mr. R. Coupland and Mr. John MacLean on the tennis court lately.

Mr. and Mrs. Bruehl and Miss N. Kittleson motored to Calgary last Friday and returned Saturday. Mrs. L. I. Pope came out to Carbon with them from Calgary.

On Sunday, Mr. W. L. Castelfranch, Mr. C. R. Burnett and Mr. C. H. Nash motored to Pine Lake on business connected with the Sandy Cove Hotel.

Rockyford Locals

Mr. P. J. (Pat) Doran, of the Canadian Bank of Commerce, returned to Rockyford on Tuesday morning from a trip home to Montreal, where he was called on account of the death of his father.

Mr. W. Carpenter is having his store enlarged. Looks like business was increasing. Step in and see the difference.

The proposal has been made to have a Wednesday afternoon holiday in Rockyford during the ensuing summer. There is no doubt that it is a long drag for the storekeeper, eight a.m. to six p.m., daily, and to ten on Saturdays, with only Sunday off. Let us have some opinion on the subject.

C.P.R. camps are now working around the district, getting the irrigation ditches and structures in shape for the summer's use.

Tutor Notes

Mrs. James Rennie visited in Calgary last Friday and Saturday.

Mrs. M. Schuster is very ill at present. We trust to hear soon of her complete recovery.

Mr. Harry Best is still at Appleton, Wis. We are informed that he had to undergo an operation and is still detained in hospital.

Mr. and Mrs. Robt. West, along with Mr. and Mrs. Anson Barnett and son James visited with Mr. and Mrs. A. W. Miller on Sunday.

Mr. and Mrs. D. R. Garriott, and Mrs. Werner, Edmonton, were also visitors to Mr. Miller and Clemens ranch on Sunday.

We are pleased to hear that Mrs. W. McMillan is well, but is still in the Holy Cross Hospital.

Mrs. J. O. Anderson and family have moved to Millet, Alberta.

Slats' Diary

Friday—Had a lot of Xetement at school was left out. Who was on are way home Pug and Jake got into a fight and Jake blacked Pug's eye and Pug blacked Jake's teeth out for Jake & it was a good sport. When ever he nicks a fellow twice he gets off like a quitter but stays and helps pick them up. That is if you are one of his good friends.

Saturday—Toni's ma had the bird she and she had on the downspout she had a book of poems and etc. They was a lot of foolishness and all I remember was something about H. off has no Fury like a woman's. Cur. Then I went to bed.

Sunday—Spent my long hair and had to take it this morning. The most dreadful thing about taking baths is that no matter how many you take they are all ways just as many left as they were before you took them.

Monday—2 new kids came to school today which has been adopted by a man and his wife. They have been orphaned ever since the death of their parents. I at them is a nice looking girl and if I was I am talking about Jane is going to have a opportunity of getting the job.

Tuesday—Uncle Ben has bought him a house here in town and he has got a barn and a lot of other things. He is generous and fair and etc. They have not it drew up in the contract so that any time he fails to make up his payments they will take the property off his hands.

Wednesday—Went to the pitcher school and took about a good pitcher. It was a crowd and before the first test was done 8 men was killed and all threw the show but cold Chills on up and down my spine. Ma is done but in says we will go next Wednesday night.

Thursday—Runs I run are down here and I heard a boy say he did he want to be a Fireman and he replied and said No it is plenty warm in here now. Can't back out fall. Ma & we control glances at each other.

USES A CLIPPER

Jack Holt's Whiskers Clipped White
Making "Making a Man."
Jack Holt's whiskers are now clipped. He doesn't shave any more. That is, not for awhile. For in showing scenes for "Making a Man," a Paramount picture in which he is starred, and which comes in the Memorial Hall on Saturday, all the action takes place on one day and Jack is supposed to have a two days' growth of beard. Director Joseph Henabery is a stickler for exactitude and demanded that Holt's whiskers be the same length for the entire situation. To shave would have been impossible. So the problem was solved by using clippers.

PROPOSED NEW BASILICA STE. ANNE DE

THE PROPOSED NEW BASILICA OF ST. ANNE DE BEAUPORT, QUEBEC, CANADA, is the old Basilica of St. Anne de Beauport. The new Basilica, designed to give the edifice an appearance compatible with its location at St. Anne de Beauport, will not conform to the architectural style of any one period but will be a combination of Roman and Gothic. An idea as to its generous proportions can be gained from the following figures: Length over all 212 feet; interior length, 200 feet; length of choir, 65 feet; width of nave, 134 feet; width of transept, 132 feet; height of grand nave, 55 feet; superficial area 42,000 square feet. There will be twenty-six altars, twelve of which will be in the choir, and the interior of the church will play a large part in the scheme of decoration of the church and will be a telling feature in providing a beautiful place of worship for the thousands of pilgrims who journey each year to the famous shrine.

A foreigner residing in London recently received a government form to fill out and, after much trouble, returned it with the following entries: Name, Ivan Skendi. Born: Yes. Business: Not good.—Mantoba Free Press.

Look up the label on your subscription and see if you are paid up. The figures after the month are the last two of the year to which you are paid.
